EDUCATION

Bahir Dar Institute of Technology

Bachelor of Science in Software Engineering

Trinity Basic computer

SKILLS SUMMARY

• Languages: Python, SQL, Java, C/C++, Typescript/JavaScript, HTML, CSS

• Frameworks: React, Node.js, Scikit-learn, Flask

• Tools: Power Bl, Excel, PowerPoint, Tableau, MySQL SSMS

• Platforms: PyCharm, Jupyter Notebook, Visual Studio Code, AWS, GCP

• Soft Skills: Problem Solver, Logical Thinker, Team Leader, Strategic Thinker, Adaptable, communication

WORK EXPERIENCE

BUSINESS ANALYST INTERN I WINH LANKA

- Researched data, utilization and reporting processes. Including processing flow by and journey. Implemented improvements and automation tools, leading to 15% increase in productivity.
- Collaborated With cross-functional teams to gather requirements, identify business needs, and develop targeted solutions.
- Presented data-driven insights through interactive dashboards and supporting data-informed decision-making.
- Facilitated stakeholder meetings and provided regular updates on project progress.
- Conducted in-depth analysis using advanced Excel functions and SQL queries to support strategic business initiatives.
- Created business requirement documents (BRDs), user and workflows for internal dashboard tools.

Student Performance Predictor I AI

- Achieved 94% accuracy in predicting student performance using ML algorithms, enabling early identification of students.
- Integrated data analysis and visualization tools to create interactive dashboards for educators and administrators.
- Deployed a scalaNe model that improved student q.RCeSS rate by 20%.

Credit Card Fraud I LOGO

- Developed a robust machine leaming model to detect fraudulent transactms with an Fl score of 0.94.
- Evaluated false positives by through feature engineering and advanced anomaly detection techniques.
- Implemented real-time monitoring and alerts for suspicious activities in a dynamic environrnent.

Hospital Disease Prediction

- Constructed an ML model to analyze diverse hospital datasets, achieving an impressive accuracy rate of 97%.
- Utilized health indicators to identify patterns and suggest early diagnosis.
- visualized hospital data for better prediction and decision-making
- Demonstrated commitment to ethical practices, while contributing to the development of data-driven healthcare solutions.
- Healthcare solutions by 20%. Through accurate predictions and reduced diagnostic errors.

CERTIFICATIONS

- Save The Children –social worker
- IMC-community mobilizer
- CAUM-translator
- CVT-counselor
- True Culture University-coordinator at Bahir-Dar university
- South Sudanese Students' Union-chairperson for two terms at Bahir-Dar university
- Oxfam farm-surveyor
